DISCLAIMER

Remember: Doctor status may change at any time

While we make sure the list of providers displayed is as accurate as possible, the details in this directory may change at any time. Just like any directory, the providers’ participation in your Blue Network is accurate only up to the time it was printed.

Before making an appointment please:

• Call your doctor, hospital, dentist, pharmacy or other provider to verify he or she is still part of your network

• Look at your benefits to see if the provider type is covered

• Ask a Member Service representative if the treatment you need from a network provider is covered

It is very important to make sure your doctors and facilities are in your Blue Network.

Provider Networks

A provider network is a distinct group of healthcare providers who have contracted with BlueCross BlueShield of Tennessee. The network includes doctors, hospitals, health care practitioners, rehabilitation facilities, skilled nursing facilities, durable medical equipment suppliers, independent labs, hospice, home health agencies and other providers in Tennessee and some bordering counties. Network providers are committed to holding down costs while maintaining the right level of quality care. They have agreed to follow guidelines that encourage using appropriate alternatives to costly inpatient hospital stays.

These providers have also agreed not to bill you for:

• Care that is not considered medically necessary

• Inpatient services and certain outpatient services that are not authorized before admission

• Any amounts above BlueCross’ maximum allowable charge, other than your coinsurance, deductibles and copayments.

Finally, network providers have agreed to accept discounted fees for their services. These discounts make sure your health plan covers a larger part of the claims your doctors submit and are reflected in your share of the bill.

Blue Network doctors and hospitals offer specially negotiated rates for services, and you will pay a lower copay amount when you use them. This applies even in an emergency situation.
Doctors and Health Professionals

Network doctors have agreed to provide patients services seven days a week, 24 hours a day. If you call the office and your doctor is out, he or she will have a doctor covering or a doctor on call for patient care. This doctor will be able to help you in place of your regular doctor.

In the directory, the doctor’s specialty is shown to help you make the best choice. However, BlueCross does not endorse or guarantee a doctor’s education, skill or experience in a certain area of medicine. Also, hospital-based doctors are not in this directory because of their internal non-credentialed status. Credentialing hospital-based doctors is the responsibility of the facility in which they practice.

BlueCross BlueShield of Tennessee is not liable for any losses, damages or uncovered charges from receiving care from a provider listed on this website.

Blue Network doctors and hospitals offer specially negotiated rates for services, and you will pay a lower copay amount when you use them. This applies even in an emergency situation.
