Enrollment in Lee University Online and Charlotte Center

Lee University Online and Charlotte Center are a part of the Division of Adult Learning (DAL) and in the DAL there are six sessions each academic year. Each session is seven weeks in length.

Each course is built around a 7-week model that requires an average of 16-20 hours per week of academic work for students. With this in mind, the DAL has established a limit of 2 courses per session that students can register in through Portico. If there are extenuating circumstances that merit a DAL student taking more than 2 courses per session, the student must petition the DAL for permission to register above the 6 credit hours per session.

Annual Registration

DAL students will now annually register for Sessions A-F. DAL students will work with their academic advisors to select courses for all 6 sessions and then register in Portico for their full year schedule. New students will have an annual schedule provided for them by an initial academic advisor.

Registration Payment Policy

Every August, students will pay a $225 registration payment. If the student has sufficient financial aid funds to cover all charges for the semester, the $225 payment will not be required. Students paying the $225 may follow the semester payment schedule provided below. As long as the student’s account in paid in full at the completion of the Fall and Spring semesters, the student will not be required to pay another $225 payment in the Spring and Summer semesters.

DAL Course Check-in

In order to stay compliant to changes in the U.S. Financial Aid system, we require students to check in to each of their courses in the first week of the class before they can proceed to Unit 1 in Moodle. The check-in process applies to both online and Charlotte Center students.

Confirmation of Enrollment

Students will be confirmed each session in which they enroll after both checking into class via Moodle and making a $225 registration payment (Financial aid can be used for registration payment only if aid exceeds total costs of attendance for the current semester).
