

Our Program

The Master of Business Administration program consists of a total of 12 courses (3 credit hours each). It is assumed that a typical student will take two courses each semester and complete the program in six semesters.

Courses are available in two different formats. The first is a hybrid design that combines the convenience of online learning with personal engagement in the classroom while meeting on-campus only one evening per week. All courses are also available fully online for students who prefer distance learning. The entire program can be completed in less than 24 months through either option.
